

# LIVE GREEN LOVE THE EARTH

## EARTH DAY IS APRIL 22

Show your company's eco-commitment with seed paper promotion! This brand new Earth Day collection includes journals, greeting cards, bookmarks, and more. It's all customizable, eco-friendly, and made using seed paper; a sustainable paper made with post-consumer materials that's embedded with wildflower seeds and will grow when planted. **A great way to leave your mark, but no waste.**
